

St. Tesla, Keeper of the Holy Spark

Oh, Blessed St. Tesla,
Greatest of the Men of Science;
You saved us from the darkness
And brought us into the light.
Oh, Blessed St. Tesla,
How holy was your vision.
Your dreams of the future
Have become our realities.
Oh, Blessed St. Tesla,
They stole your papers,
They tore down your power,
And hid your greatest secrets.
Oh, Blessed St. Tesla,
Let us build the world you dreamed.
Let us create from metal and wood,
The apparatus of Salvation.
Oh, Blessed St. Tesla,
Save us from Petroleum.
Oh, Blessed St. Tesla,
Save us from Direct Current.
Oh, Blessed St. Tesla,
Hear our prayer.
